**EQUIPEMENT**

A great story of men, mobilized and  
committed to serve you ...

**MARSHALL**  
EQUIPEMENT

**MARSHALL**  
EQUIPEMENT

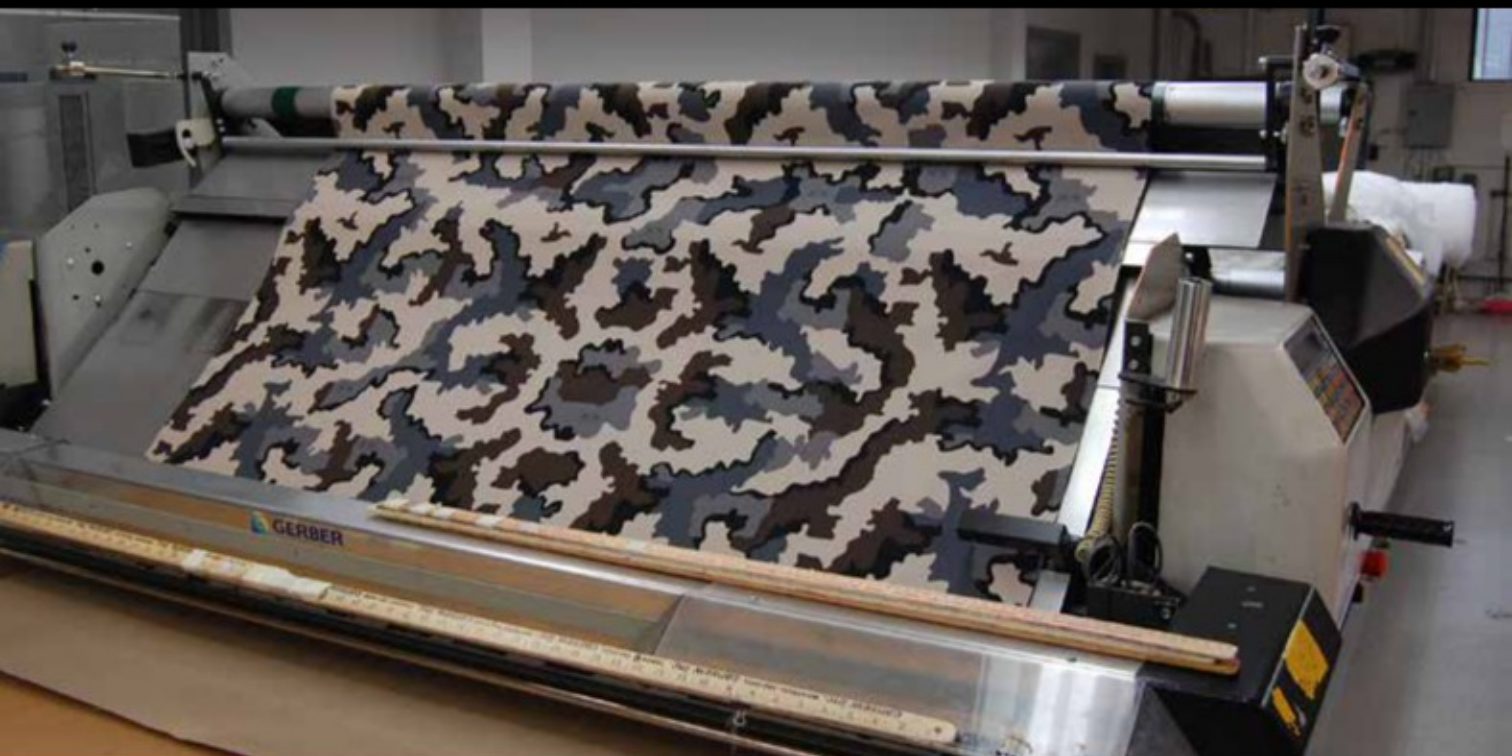

# 40 years of experience

## **A family business built on seriousness and tradition**

Borrowing from a pioneering spirit, Marshall Group never stops innovating by striving for performance and reliability.

With a long experience in the production of specific equipment for the benefit of various public administrations such as the army, the police, the gendarmerie, the fire brigade, customs administration, health administration and many other departments, Marshall tirelessly pursues the objectives it has set itself since its inception, namely: to be of service to its customers and their complete satisfaction by a very high level of requirement in the quality of its products, rock-solid reliability and continuous innovation.

Socially responsible, citizen actions are at the center of our interests. Our collaborative way is part of an approach of inclusive growth and sustainable development. As such, we are now supporting numerous associative actions as well as industrial investments with training and transfer of skills in several African countries.

# Listening is strength

Coming from the textile and footwear industry, our group has always strived to satisfy its customers by providing them with impeccable quality. After the trust established, we went further to respond to their numerous requests. Motivated by their expectations and borrowing from an entrepreneurial spirit, we decided to support them in new areas. To do this, we have selected the best partners in the world capable of responding to varied and demanding requirements.

Since then, more than 1,500 employees trained in the best schools have been active in our various industries in order to serve more than 100 customers in 15 countries on a daily basis. Today our group can offer a wide range of products and services such as:

- Complete HCCA Equipment
- Safety and riot protection equipment
- Camp equipment and campaign material
- Civilian, military and civil protection vehicles (air-land-sea)
- Food, combat rations
- Equipment and non-lethal ammunition
- Furniture and fittings for administrations
- Consulting and training

# Ingenuity, with a real flair for innovation

**Aware of the importance of innovation in our various fields, we are constantly looking for the best products and the latest breakthroughs in order to always be pioneers.**

After forty years of experience and with our versatile and highly trained teams, we have learned to respond quickly and precisely to the increasingly demanding requests made by our contractors. The quality of deliverables, respect of deadlines, as well as pro-activity and logistical speeds have become our constant focus.

Our founding values and daily practices give Marshall-Group a strong brand image and international recognition.

# Responsiveness and satisfaction

## Foolproof...

Racing against time is our specialty! Urgent orders are only possible with a local partner who has its own factories, and Marshall-Group produces in Morocco, the hub of the African continent. In a few hours of travel, our brothers and sisters from Central and Western Africa are already at the door of our factories. Thanks to this incomparable advantage, our prime contractors can intervene directly on our production lines by immediately approving production samples without wasting a single moment.

We produce and deliver in record time without any competition.

# OUR TEAMS, OUR PILLAR

**The Marshall Group is aware of the African potential, development and its inestimable wealth in terms of human resources.**

Constantly seeking progress and above all excellence, we rely on the strength of our teams by doing everything possible to offer them the best working conditions for their unconditional and exclusive fulfillment.

Thus, we ensure their continuous training but also their motivation while providing them with an adapted and comfortable working environment.

We also offer our colleagues the best salaries in the industry and put their well-being at the top of our priorities.

The satisfaction of our customers and our development depend on our troops, we ensure that everyone comes out a winner in a sector where labor at too low costs would only be detrimental to the sustainability of our company and to our clients.

# Our contract trust

**Because the satisfaction of our customers is imperative, we have made the quality of our products a priority and have developed especially for you a collaboration charter, guaranteeing a flawless commitment.**

**CONFIDENTIALITY** We are committed to maintaining absolute confidentiality and never disclosing information to a third party. We make it a point of honor to maintain complete trust with our customers and partners.

**RELIABILITY** We are committed to providing you with all the necessary elements in order to carry out your projects and provide you with your orders on time, in strict compliance with the quality and deadlines requested. Responsiveness, punctuality and respect for the details of orders, these are the values that drive us and that make Marshall-Groupe a partner of choice, on which you can always count.

**QUALITY** We are committed to a strict control of our deliverables and to ensure and meet the international standards in force. With our years of experience and expertise, we are at your service to advise you and support you in your projects.

**AVAILABILITY** We are committed to being present by your side, whatever the circumstances. With a spirit of anticipation, you can count on us in the most complex situations. Present, we are also committed to getting our customers out of any difficult situation by providing the best solutions and the help they need.

THEY MAKE US  
TRUST

...the story continues with you...

THANK YOU
